Subject: SENTINEL Meter Spec Form Wizard Update

Version S30.2 of the SENTINEL Meter Spec Form Wizard is now available in SharePoint and through the ItronAccess portal.

Revisions to this version include:

- Potential Links option on A-Base Class 150 Form 16
- I/O options on Trilliant Mesh
- Hunt TS2 Communication Options
- Removed end user provisioning contact info requirements and sales contact info requirements for Trilliant
- Shortened the Trilliant Options form to avoid buttons being cut off in various screen resolutions
- Added option to choose KYZ Ready meter upon selection of Socket (9S, 9S/46S, 46S, 56S or 66S) or Switchboard (9F or 46F)

Please contact Marion Nichols with any questions.
